Virgo: August 23 - September 22

Virgos are known to be logical, smart and quick thinkers, so a trip to [San Francisco](#) should check all the boxes needed for a fun getaway. Stay at the [San Francisco Marriott Marquis](#) and book the Curious Room by TED. Hidden inside the room is a series of interactive puzzles and riddles about the city. Each correct answer will reveal a surprise and/or reward, including a certificate and free dessert at the on-site restaurant once the final challenge is completed. The hotel is also in the heart of the downtown SoMa (South of Market) area, near restaurants, galleries and cable cars to take you to all the places you need to check off your list. Rates start at \$608. Thinking instead of traveling abroad? The Curious Room by TED is also available at the Bangkok Marriott Marquis Queen's Park and, starting Sept. 15, at the London Marriott Hotel County Hall.
